

1100 Van Gogh Freestanding

The Freestanding Van Gogh is a stylish and practical addition to any home. Its versatile design makes it adaptable to various living spaces, whether it's against a wall or as a centerpiece in a living area. The ample wood storage space is a great feature, ensuring convenience and functionality. Having the fire at eye level adds a cozy and inviting ambiance to the room. Plus, the option for a double-sided display adds even more flexibility and visual appeal. It seems like a perfect combination of form and function for enhancing home environments.

The Freestanding Van Gogh boasts a dual intake system, featuring a primary and secondary intake. The primary intake ensures airflow directly from the bottom grate and side vents. Air enters the unit's outer box at the top, where it's heated by convection from the combustion chamber. This heated air then passes through the controllable vent over the glass, serving as an air-wash system. Not only does this keep the viewing glass free of soot, but it also delivers preheated air back to the combustion chamber, enhancing overall efficiency. The unit also features a large wood storage compartment.
